[Permanent makeup](#), or cosmetic tattooing, is a fast-growing part of the health and [beauty](#) industry.

If you have faint eyebrows, no eyebrows, or partial eyebrows, a cosmetic tattoo can help. A lip tattoo can reduce "lipstick bleed," and give definition to the lip line. With a colored lip tattoo, lip scars seem to disappear, plus you can kiss lipstick good-bye. After an eyeliner tattoo, you can put away your [eye](#) pencils for several years.
